

# Indices of Deprivation 2025: Skircoat Ward

## Introduction

The Indices of Deprivation 2025 provide information about deprivation in small neighbourhoods. They include the Index of Multiple Deprivation (IMD) which is the official measure of deprivation for a neighbourhood. This report summarises IoD results for the Skircoat Ward. Results are reported for small areas called Lower Layer Super Output areas. Each LSOA has approximately 1,600 people. The summary includes:

- Key results for the ward;
- Background information to IoD and IMD;
- A map showing IMD national decile results for the LSOAs in this ward;
- Four tables summarising:
  1. Number of neighbourhoods in the 10%, 20% and 30% most deprived neighbourhoods in England by each IoD Domain;
  2. IoD ranks and percentage ranks for LSOAs in the ward;
  3. Percentage of residents that are Income deprived, or Employment deprived according to IoD;
  4. Ward average for each IoD domain and index

### Background information

- The IoD are based on seven individual domains called Income, Employment, Education Skills and Training, Health and Disability, Crime, Barriers to Housing and Services, and Living Environment.
- IoD includes two supplementary indices for the Income domain of
  - children in families with income deprivation (IDACI) and
  - people aged 60+ with income deprivation (IDAOP1).
- LSOAs were originally developed by the Office for National Statistics for reporting results of similar population sizes. LSOAs tend to be smaller in urban areas and bigger in rural areas due to differences in population density.
- There are 33,755 LSOAs in England of which 129 are in Calderdale and eight in this ward.
