

IoD 2019: Health deprivation and disability domain

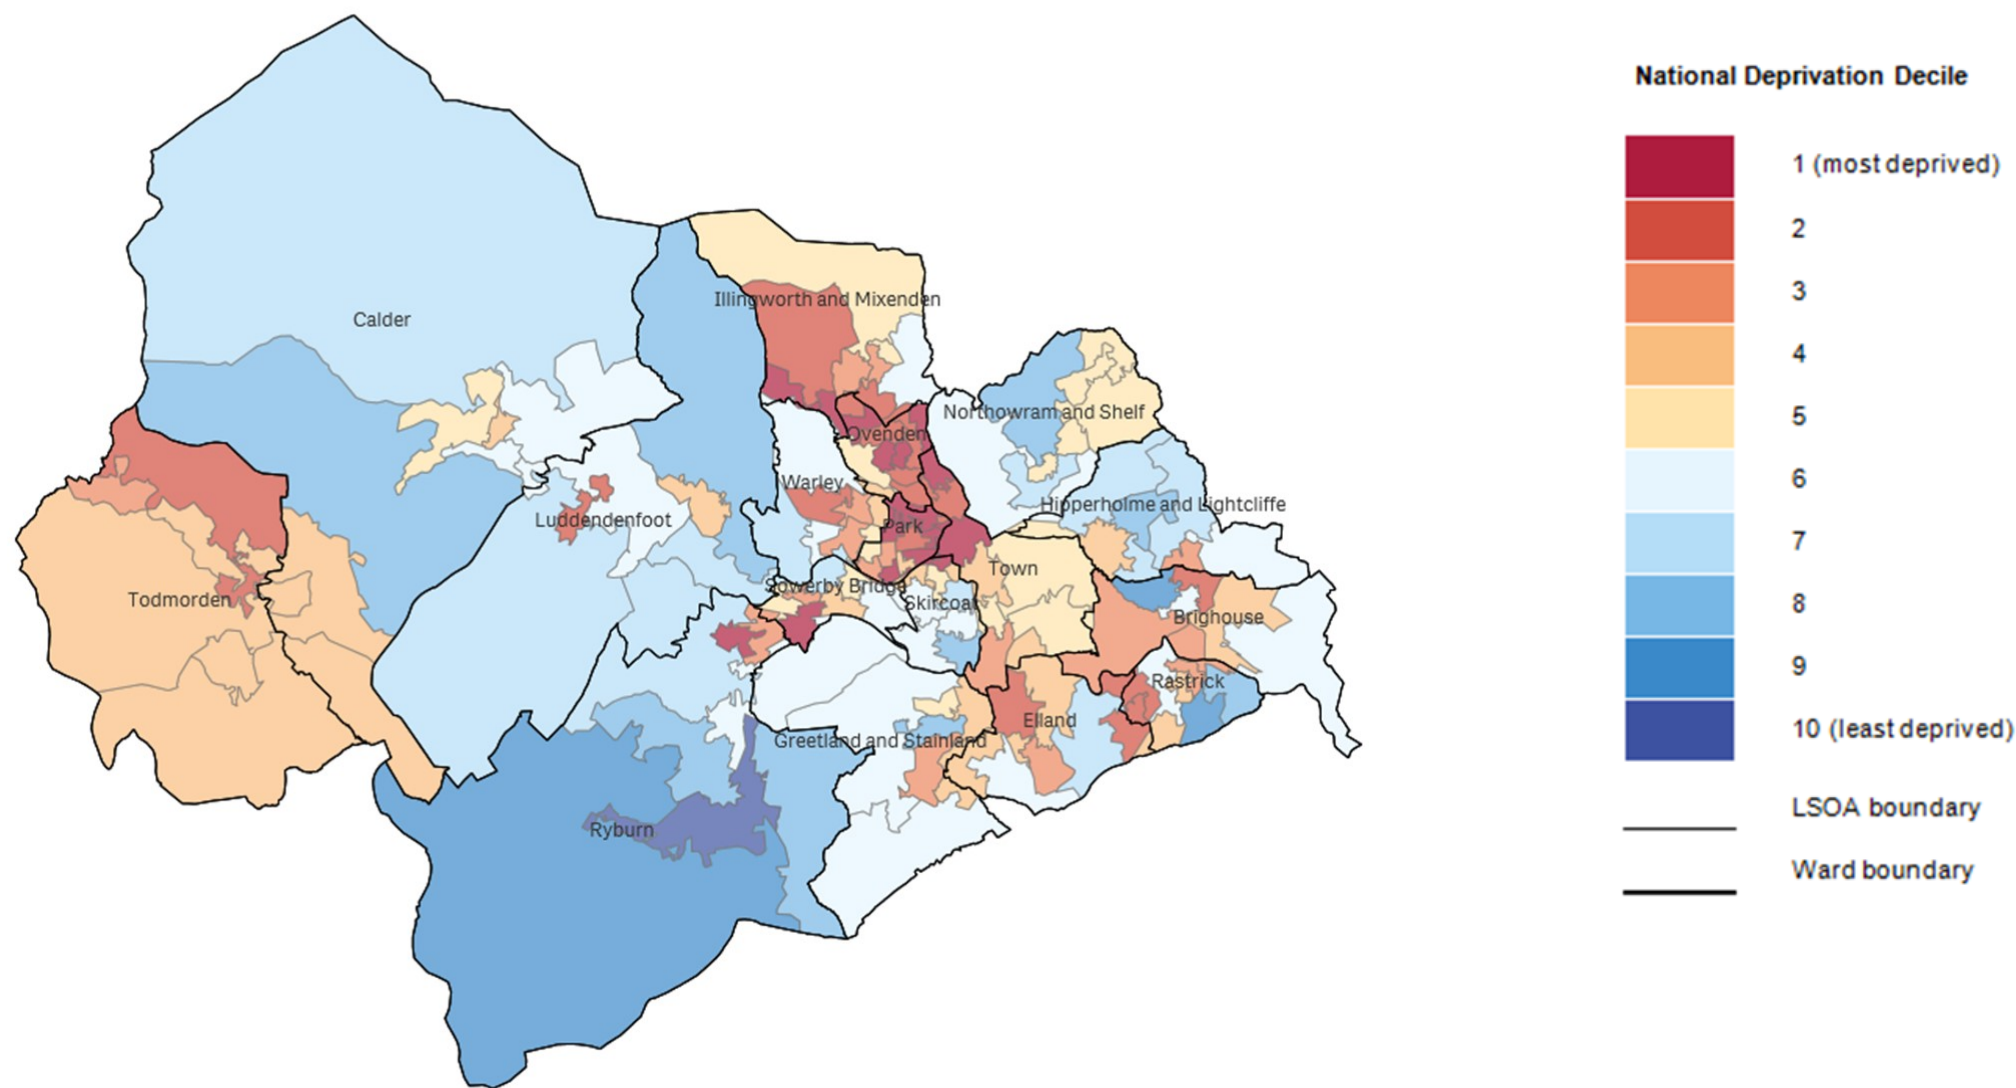

The **Health deprivation and disability domain** measures premature death and the impairment of quality of life by poor health. It considers both physical and mental health. The domain measures morbidity, disability and premature mortality but not aspects of behaviour or environment that may be predictive of future health deprivation. This table summarises the number of neighbourhoods called LSOAs in Calderdale that are within 30% most deprived in England for this domain. There are 32,844 LSOAs in England, and 128 in Calderdale.
