

English Indices of Deprivation 2025: Calderdale Dashboards

Dashboard User Guide and Glossary

What are the Indices of Deprivation?

The English Indices of Deprivation (IoD) is a set of relative measures of deprivation for small neighbourhoods (known as Lower layer super output areas or LSOAs) across England. It is based on seven different domains of deprivation:

- Income deprivation;
- Employment deprivation;
- Education, skills and training deprivation;
- Health deprivation and disability;
- Crime;
- Barriers to housing and services;
- Living environment deprivation.

Each of these domains is based on a basket of indicators. There are 55 indicators overall¹.

The Index of multiple deprivation (IMD) combines information from the seven domains. It is the mostly widely used IoD data set. It is also the Government’s official measure of relative deprivation at neighbourhood level. Three domains include sub domains:

Domain	Subdomain 1	Subdomain 2
Education, skills and training deprivation	Children and Young People	Adult Skills
Barriers to housing and services	Geographical	Wider
Living Environment deprivation	Indoor	Outdoor

There are two supplementary indices – Income deprivation affecting children index (IDACI) and Income deprivation affecting older people index (IDAOPI).

LSOAs are statistically defined areas of approximately 1,600 created by the Office for National Statistics. There are 129 LSOAs in Calderdale. However, the IoD results are also reported at other geographical scales. Source: www.gov.uk/government/statistics/english-indices-of-deprivation-2025

¹ See MHCLG “English Indices of Deprivation 2025 Technical report” for a full list of data sources in IoD 2025. <https://www.gov.uk/government/publications/english-indices-of-deprivation-2025-technical-report>.

Getting started

Click on the following link to view the 'English Indices of Deprivation 2025: Calderdale Dashboards'; <https://dataworks.calderdale.gov.uk/dashboards/iod2025/>.

There are five dashboards. See pp 3 – 9 below for a description of each dashboard's features.

Calderdale IoD 2025 Dashboards: Page 1: Results by Index or Domain

This dashboard shows the IoD 2025 results for the Index of Multiple Deprivation (IMD), each of the seven domains, and the supplementary indices for children and older people living in low-income families.

- Use the **Index / Domain selector** to select an index or domain.
- Use the **ward filter** to select one or more wards.
- Click on the **2025 map colour key** or the **LSOA information table** to select results by one or more IoD deciles or LSOAs
- Use the > symbol at the bottom of the screen to view the next dashboard

LSOA information table

Note
The LSOA information table includes IoD 2019 and IoD 2025 data. There have been significant changes to underlying data sources which will have contributed to the % point change between the indices for each period. Each one provides a snapshot of relative deprivation at a point in time based on the latest available data at that time. See the IoD guide and glossary for further information on changes to data sources

Domain	LSOA Name	2025 Rank %	2025 Decile	2019 Rank %	2019 Decile	% point change	Change band	Ward Name

Calderdale IoD 2025 Dashboards: Page 2: Results by Subdomain

This dashboard shows the IoD 2025 results for the three domains where overall results are based on two subdomains.

- Use the **IoD Main Domain selector** to select a domain.
- Use the **ward filter** to select one or more wards.
- Click on any of the three **colour keys** to select results by one or more IoD deciles for that domain / subdomain.
- Use the <> symbols at the bottom of the screen to move between dashboards

Calderdale IoD 2025 Dashboards: Page 3: Ward summaries

This dashboard shows ten maps of IoD 2025 results by each of the main indices and domains.

It includes a table in the top right of the screen which confirms the percentage of people, children and older people who are income deprived, and working-age people who are employment deprived for the area selected.

- Use the **ward filter** to select one or more wards.
- Click on the **LSOA Decile results table** to select results by one or more LSOAs

Ward filter →

The dashboard displays ten maps of deprivation indices: IMD, Income, IDACI, IDAOPI, Employment, Education, Health, Crime, Barriers, and Living Environment. A table in the top right provides summary statistics for the selected area.

% people income deprived	% children income deprived	% people aged 60 plus income deprived	% working age people employment deprived
26.3%	40.1%	16.8%	16.5%

Below the maps is a table of LSOA Decile results:

LSOA Name	Ward	IMD	Income	IDACI	IDAOP	Employment	Education, Skills and Training	Health Deprivation and Disability	Crime	Barriers to Housing and Services	Living Environment
Calderdale 015A	Brighouse	3	4	4	5	4	4	4	2	9	1

New ward information 2026

There will be local (district) elections on 7th May 2026 for new wards following a [Local Government Boundary Commission review](#). The ward information included in these dashboards is based on ward boundaries that predate these elections. The Office for National Statistics is due to publish 2026 ward boundary information in June / July 2026. Once that has been published new ward information for Calderdale wards will be published on these dashboards.

If you have any further questions about the guide or glossary or the Calderdale IoD dashboards contact performance.businessintelligence@calderdale.gov.uk

Calderdale IoD 2025 data and fact sheets are available at dataworks.calderdale.gov.uk/dataset/calderdale-imd-2025-results-2wo44

More information is available from the Gov.uk website at www.gov.uk/government/statistics/english-indices-of-deprivation-2025

Glossary

[Acronyms and terms](#)

[IoD 2025 decile colour key](#)

[Change band colour key](#)

Acronyms and terms

Acronym / Term	Description
Domain	Term used to describe seven individual indices that underpin the Index of Multiple Deprivation
IDACI	Income deprivation affecting children index.
IDAOP	Income deprivation affecting older people index
IMD	Index of multiple deprivation
LSOA	Lower Layer Super Output Area. A statistically defined area created by the Office for National Statistics. Each area contains approximately 1,600 people. LSOAs tend to be larger in rural areas compared with urban areas due to the difference in population density. There are 129 LSOAs in Calderdale. The English Indices of Deprivation 2025 was based on 33,755 LSOAs. Each LSOA has a label: eg Calderdale 001A.
National percentage	Statistic used to indicate neighbourhood deprivation levels when compared to all other neighbourhoods in England. The lower the percentage the more deprived.
Neighbourhood	Term used in the English Indices of Deprivation to describe an LSOA area
