

The Index of Multiple Deprivation 2025

The English Index of Multiple Deprivation 2025 (IMD 2025) is the latest official Government measure of relative deprivation for small areas. It is based on seven individual domains called Income, Employment, Education Skills and Training, Health and Disability, Crime, Barriers to Housing and Services, and Living Environment. There are also two supplementary indices for the Income domain of children in families with income deprivation (IDACI) and people aged 60+ with income deprivation (IDAOP1).
