

IoD 2025: Income deprivation domain

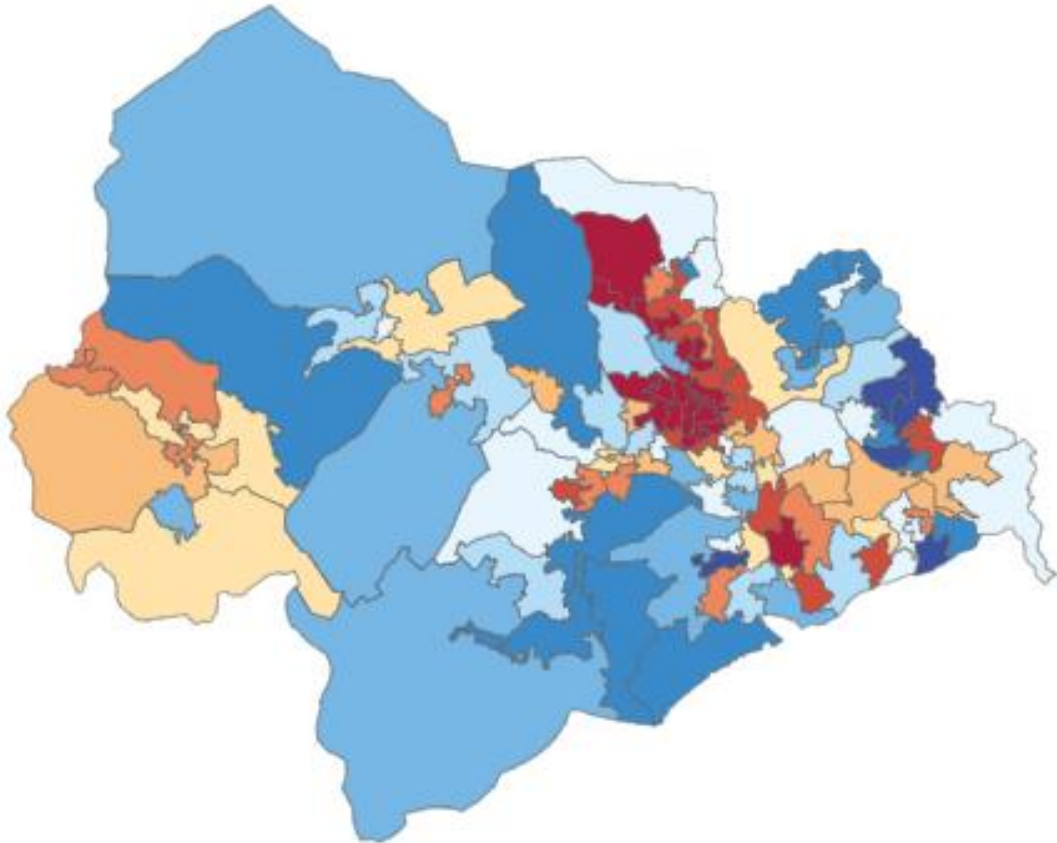

The Income Deprivation Domain measures the proportion of the population in an area that live in income deprived families. The definition of income deprivation adopted here includes both families that are out-of-work and families that are in work but who have low earnings (and who satisfy the respective means tests). The table summarises the number of neighbourhoods in Calderdale that are within 30% most deprived in England for this domain.
