

# The 2015 Index of Multiple Deprivation : Rastrick Ward

## Introduction

The English Indices of Multiple Deprivation 2015 (IMD 2015) is the latest official Government measure of relative deprivation for small areas. It is based on seven individual domains called Income, Employment, Education Skills and Training, Health and Disability, Crime, Barriers to Housing and Services, and Living Environment. There are two supplementary indices for income deprived children (IDACI) and people aged 60+ (IDAOP). IMD 2015 includes measures of relative deprivation for small areas of approximately 1,500 residents, called Lower Layer Super Output areas (LSOAs). There are 32,844 LSOAs in England of which 128 are in Calderdale and 7 in Rastrick Ward.

This report summarises IMD 2015 results for the LSOAs in this ward. This includes overall results and results for the seven individual domains and the two supplementary indices.
